In this guide, we will cover the steps for viewing course content in Moodle at the beginning of the semester.

How to View Registered Courses:

All courses are loaded approximately three weeks before the first day of class. You should be able to view all courses you are registered for on or before the course start date. You will find a list of your courses in the course overview. You can also view your courses under the Navigation block.

List of Courses

College policy states that instructors have five (5) business days before the first day of class to post initial course content. If you click on a course and it does not have content, the instructor hasn’t posted it.

If you do not see a course listed in your course overview, it may be hidden. Follow these steps to list all courses:

1. Click “Customize this page.”

This indicates that you have hidden courses from your course overview.
2. Select “Always Show All” from the drop down menu by Number of courses to display.

3. Once “Always Show All” is selected, press “Stop Customizing this Page.”

Please note: If you are still missing course(s) from your course list and you are enrolled in Web Services, please call the Help Desk. Your enrollment will be verified with Web Services and you will be enrolled in the course(s).

If you need assistance, please contact the Information Services Support Center

THE INFORMATION SERVICES SUPPORT CENTER (ISSC) IS OPEN 24 HOURS A DAY, 7 DAYS A WEEK, BY PHONE AT (225) 765-4357 (765-HELP).
