

Bachelor of Science in Health Sciences

Purpose

The purpose of the Bachelor of Science degree in Health Sciences is to allow students who have received an associate degree in a health care program to obtain a baccalaureate degree. All of the course work finished in the associate degree program counts toward the baccalaureate degree regardless of the clinical program completed.

Enrollment

Students who have completed an Associate of Science degree in an allied health field from a regionally accredited post secondary institution are qualified for enrollment in the Bachelor of Health Sciences degree program.

Length of Program

The length of the program depends on the number of credit hours that the student earned at the associate degree level. Depending on the associate degree completed, the student will be awarded up to 72 credits for the associate degree.

Requirements for BS Degree in Health Sciences

1. Associate of Science Degree in Nursing or an allied health field from a regionally accredited post secondary institution.
2. Completion of all core courses including (34 hours):

**Curriculum Plan for the Bachelor of Science
Degree in Health Sciences**
