

**Our Lady of the Lake College
IMMUNIZATION POLICY**

At the time of registration all students born after 1956 must show proof of measles, mumps and rubella (MMR) immunizations. Immunization against Tetanus-diphtheria is required of all students regardless of age. In addition, all first time freshmen must furnish proof of immunization against meningitis beginning Fall 2006. Failure to show documentation will necessitate a waiver being signed with the restrictions as described below.

In compliance with state law, OLOL College has adopted an immunization policy to protect the students, faculty, and staff from outbreaks of measles, mumps, rubella, tetanus, diphtheria and meningitis. The policy applies to all students if they are enrolling for the first time at OLOL College or if they are returning after an absence of one semester or more.

Students will **not** be allowed to complete registration unless they have furnished proof that they have satisfied the immunization requirement. That requirement can be met either by furnishing proof of immunity or by signing a waiver claiming exemption from the immunization policy. These options are described below.

Proof of Immunization.

- 1) If you were born after 1956, you must furnish proof of immunity to measles, mumps, rubella (MMR) by providing:
 - a. Either proof of TWO immunizations for measles since birth or ONE immunization for measles at age 15 or later;
 - b. at least ONE immunization for mumps and ONE for rubella;
- 2) All students must furnish proof of one tetanus/diphtheria (T/D) immunization within the last 10 years.
- 3) Meningitis Vaccine within the last 10 years or a meningitis waiver is also required for students who are first time college freshmen; it is optional* for all others. *Meningitis vaccine is mandatory for Physician's Assistant and Clinical Laboratory Students.

Your proof of immunizations must be a signed record from a physician, public health clinic, or other health care provider giving:

1. the dates of immunization or
2. the dates of occurrence of disease or
3. the date and results of a serologic test proving immunity.

A copy of a "shot" record provided by a clinic or health care provider is satisfactory.

Waiver from Immunization Requirement. You may claim exemption for medical, personal, or religious reasons. If you have a medical reason for not being immunized, you must submit evidence from your physician and the requirement will be waived. You may also claim exemption from the immunization requirement for personal or religious reasons. If you are not 18 years of age, a request for exemption must be signed by a parent or legal guardian. Persons who sign a waiver will be permitted to complete the registration process. If you claim exemption from the immunization requirement for medical, personal, or religious reasons, the College will require you to leave the campus and will exclude you from class in the event of an outbreak of measles, mumps, rubella, meningitis, tetanus, or diphtheria. You will not be permitted back on campus or in class until the outbreak is over or until you submit proof of adequate immunization.

Please see the Student Health page of the College website for Frequently Asked Questions about immunization compliance.
